

Technical Specifications Summary: EBOSS Power Modules

Date: December 9, 2025

To: Stephenson Rental Service Client

From: Travis Waineo, Senior R&D Manager

Subject: 600V Technical Specifications for EBOSS 220 KVA and EBOSS 400 KVA Power Modules

This note provides the requested technical specifications for the EBOSS 220 KVA and EBOSS 400 KVA Power Modules, specifically focusing on amperage ratings at 600 volts.

EBOSS 220 KVA Power Module Specifications (at 600V)

Specification	Amperage Rating @ 600V
Maximum Amperage (Continuous, generator dependent)	105 Amps
Maximum Intermittent Amperage	230 Amps
Motor Starting Amperage	350 Amps

EBOSS 400 KVA Power Module Specifications (at 600V)

Specification	Amperage Rating @ 600V
Maximum Amperage (Continuous, generator dependent)	200 Amps
Maximum Intermittent Amperage	365 Amps
Motor Starting Amperage	585 Amps
