TuffTruk

EarthSmart™

The compact TuffTruk is ideal for interior demolition, environmental remediation, general construction, landscaping and utility work.

Rechargeable Battery Drive Model TB11E

Available with a Polyethylene Tub

Integral battery charger uses standard 120 Volt power and features overcharge protection.

Zero emissions — easy charging!

- TuffTruk Model TB11E features a rechargeable, zero emission, high torque battery drive and provides solid eight hour run time under full load.
- Long-lasting charge lasts two to three days working under typical conditions.
- Rechargeable battery model has regenerative braking system to help slow down when stopping; this generates power back to the battery to increase efficiency and range.
- Quiet operation produces very low noise — 69 dBa using rechargeable battery.

A compact workhorse

- True 4-wheel drive and wide flotation tires provide traction on muddy or rough terrain, with excellent climbing ability.
- Excellent maneuverability with 40° articulation angle and 58-inch turning radius.
- Rugged steel tub carries up to 10.6 ft³ of material or debris and passes through 36-inch wide openings. Optional 7 ft³ tub allows access through 32-inch openings.

Adapts to your requirements with multiple, easy-to-install accessories.

TuffTruk Extension Kit — TTE — 33.4 or 29.0 inch width, ideal for increased capacity when carrying light loads. (Steel tub only)

TuffTruk Dump Handle — TTH — for added convenience when discharging tub uphill.

TuffTruk Snow Plow — TSP — perfect for displacing snow during poor weather conditions.

TuffTruk Flatbed — TFB33 and TFB29 — 33.4 or 29.0 inch width, ideal for transporting heavy bags of material.

TuffTruk 2-Inch Towing Hitch — TBH — offers various height positions for different size trailers.

Optional 7 ft³ clip-on tub — TT7 — allows access through narrow 32-inch passageways.
