

Postmaster

- Two sizes available:
 - 8000 Series - 36" Stroke
 - 9000 Series - 56" Stroke
- Designed for smooth operation with no shock load.
- Weight can easily be added to hammer (up to 700 lbs.)
- Up to 60 posts an hour. Chain speed is controlled using a flow control.
- Optional low profile hydraulic tilt.
- Optional patented "one man operation" fence post grapple. No electrical or additional hydraulics necessary.
- Multiple post collars allow for wood or steel posts up to 8" square.
- Optional adapter for T-posts.
- Patented floating anvil (striker plate) & collar keep posts from mushrooming & held in position.
- Much safer than conventional post drivers. No need to hold the post once it has been set in the collar head.

Product Specifications

Hydraulic Tilt - Tilt 20 degrees left and right. Keep posts aligned when operating on hills.

Post Grapple - Can be added to any model for a one-man operation. Grab the post off the ground, load it into the machine, and drive it in the ground without leaving the skid-steer seat.
