

The KM 932MB Barrier Lifter is a mechanical grapple for fast and convenient handling of concrete barriers and blocks.

- ▶ **Safe:** Carbide gripping pads ensure safe operation, even on wet or coated surfaces. An optical power indicator illustrates the range for optimum grip.
- ▶ **Efficient:** The fully integrated, mechanically operated “latch & release” system allows the unit to function independently, without assistance from a ground man.
- ▶ **Versatile:** Multi-position arms are a standard feature. This means one unit can achieve different gripping ranges by simply changing a pin position.
- ▶ **Cost-effective:** The elimination of slings and chains means more cycles can be achieved per hour.
- ▶ **Fast:** The “latch & release” system functions automatically each time the load line is slackened.

Barrier lifter KM 932MB

Type	Opening range A (min./max.) (mm)	Self weight (kg)	Load capacity max. (kg)
KM 932MB-6/10	115 – 305	162	6580
KM 932MB-12/14	295 – 395	150	6580
