

# MB 750

## MB Hydraulic Breakers for Carriers from 10 up to 17.0 Ton weight

Atlas Copco's range of medium-duty hydraulic breakers was developed for a wide variety of applications. The combined gas/oil power principle means they are both powerful and highly flexible with regard to oil flow rate and pressure. Their technically advanced percussion mechanism, e.g. with long piston stroke, reduce unavoidable vibrations far more efficiently than many other makes

### Technical Specifications

<b>Carrier Weight Class</b>	22,046 to 37,479 lbs
<b>Service Weight</b>	1654 lbs
<b>Oil Flow</b>	21.1 to 31.7 GPM
<b>Operating Pressure</b>	2030 to 2465 Psi
<b>Impact Rate</b>	370 to 840 blows/min
<b>Working Tool Diameter</b>	3.94 Inch
<b>Working Length of Tool</b>	21.65 Inch
<b>Max Hydraulic Input Power</b>	34 kW
<b>Sound Power Level Guaranteed</b>	117 dB(A)
<b>Sound Pressure Level (r=10m)</b>	88 dB(A)

**Complete with hoses, bracket and chisel (or point). We will prepaid the freight and have someone install the bracket hoses and chisel.**

### Features & benefits

- VibroSilenced Plus system
- ContiLube II
- AutoStart
- Energy recovery
- Percussion chamber ventilation

### Applications

- Demolition
- Foundation work
- Tunneling
- Trenching
- Underwater work
- Boulder size reduction in quarries
